Outcome of Activity

At the end of the workshop participants understood basic concept of research, concept of study design concept of ethical issues in medical research concept of research protocol types of data and data presentation, sampling method, concept of literature research, concept of qualitative research, study design and experimental studies etc.

Overall Feedback

The overall feedback of workshop was very satisfactory as feedback received from participants. Objectives of workshop was largely achieved as 91% participant gave feedback in that favor.

More than 94% of the candidates found workshop useful for their professional activity, when participant were asked. About helpfulness of the speakers, everyone was in favor. When participants were asked about effective use of technical aids that they learned during workshop, 82% found it effective and 75% of the participants found the workshop beneficial.
